Randlay CC Lighting	Change to LED	Project to change all lights at RCC to LED was completed in November 2021.	Completed October 2024
Electricity Bills	Contract due for renewal	Obtained initial prices in September, advised to sign new contract asap. Members wished to hold off this decision. November 2021, seems to have stabilised – advised Members. Contract due for renewal in 2022, need to have made decision by March / April at the latest.	New 4yr contract taken in Jan 22
Saving energy	Turning off lights	Reminder notices for staff and visitors, particularly user groups. Consider installation of sensors in the future especially where limited footfall.	Monitor changes with LED and sensors to be investigated during 24/25 FY (delay due to costs)
Washing Machine detergent	Only use short cold washes	See note below	
Stationery	Using recycled materials	Recycled Paper only Use pencils where possible Use recycled pens	Now able to select green product replacements via Lyreco
Christmas Events	Christmas gifts for Senior Citizens	Order the magnets with recycled paper notepads	Alu Water Bottle purchased instead for 2023 as used as part of Green Day
Washing Machine detergent	Purchase powder that states works specifically at lower temperature with shorter washes	Purchased Ariel Powder	
Fridges	Turn up by 1c	uses slightly less power	
Plastic waste bags (bin bads)	Other options rather than plastic	Investigating options with supplier	Product quality being checked
Toilet Lighting RCC	Possible Change to LED	Due to EM battery issues quotes being sort to change to LED variants (these are already sensor triggered)	All installed
Heating	Reduction by 1c	Acrossall sites heating reduced by 1c all days / times.	Monitor affects on user groups over coming year
Vacuum Cleaner	Leads / safety / rechargeable options	Purchased Cordless Henry	Purchased in Mid 2022
Solar Panels @ RCC	Grants / Budget	Gained £10k from TWC - quotes now aquired	Installed in February 2024
Options for solar at HNC	To start investigations	Will be looked into now that RCC has progressed	Due to Roof angles not suited to solars
Electric van	costs v savings	in conversation with van hire company	Van supplied May 2024
Convert Tools to rechargeables	pricing & only as and when tools break	Currently nothing needs replacing	
SID	Mains or battery	Cheaper to have battery as opposed to main	did try but that failed - rechargeable battery used instead
Community Fridge	Move location	Moved to HNC for better use	Currently awaiting information from Foodshare
Allotments	Promoting growing vegitbales	Discussion with Plot holders	On going
Green Day Event	To hold day(s) to promote green ideas	Event on 21st October 2023	Further events to be held
Allotments	Rain water collection	Investigating options with supplier	On going
Furniture	? Possible purchase of 2nd hand furniture	Company on Stafford Park hold stocks of pre-loved furniture	Will when purchasing items consider what options are available from this supplier
Collection of rain water at all Centres	Not possible at Randlay. HNC & PAV possible	Now looking into locations and collection options	PAV done.
Ordering from Suppliers	To buy 'green' products or switch to green options	Checking with Suppliers options - ongoing	Lyreco confirmed running at 50% purchases from their green lines compared to National average of 37%
LED Light Bulbs for residents	Check costs / suppliers	TWC have provided LED blubs - free to residents	So far issued around 200 bulbs
Refill bottles at Centres	To allow residents to fill water bottles from centres	Joined Refill HQ Project UK	Will continue
Install of electric charging point at PAV	As part of switch to van if done install	Van supplied in May 2024, install of suitable EV charging point	Available using app for residents by early Autumn '24
Marches Enviroprojects	Hold a meeting with them to discuss ideas / grants	Meeting taken place in June 2024,	full report to be provided by early July'24 (see breakdown directly below of outcome)
	RCC - move from gas to electric heat cooling - removal of gas boiler	Works completed January 2025	The expected carbon saving is at least 22t p/a - 16ts with these works along with 6ts purely for the solar panels at Randlay
Grant of £60,000 awarded - total cost of works £88,500	HNC - move to ASHP - removal of 2 x gas boilets	Works completed December 2024	
	PAV - move to ASHP. Solars and battery storage - removal of gas boiler	Works completed February 2025
